

Dear Internship Candidate,

Thanks for your interest in becoming a part of the team here at the WNC Nature Center, a part of the City of Asheville's Parks, Recreation and Cultural Arts Department. With over 40 acres of Southern Appalachian habitat, the WNC Nature Center is a prime attraction in the Asheville area for families, residents, and visitors. The Nature Center is proud to be accredited by the Association of Zoos & Aquariums. We welcome over 130,000 visitors annually and provide care for over 60 species of wild and domestic animals as we work towards our mission of connecting people with the animals and plants of the Southern Appalachian Mountain region.

Are you looking to gain experience or to learn more about zoo careers? The WNC Nature Center is searching for seasonal interns to assist with our animal and education departments. All of our internship positions are volunteer non-paid positions; internships may be eligible for school credit, pending your school's approval. The Nature Center can only host a limited number of interns each season, so the selection process is competitive.

If you are seeking paid employment, all hiring for full-time or paid positions with the Nature Center or Asheville Parks and Recreation are posted on the City's website at www.ashevillenc.gov.

Both the Nature Center and the Friends of the Nature Center are always looking for volunteers. If you're not able to commit to a full internship (20-40 hours per week) or if you are not offered a formal internship, please consider volunteering. To find out more about volunteering, visit our website: www.wildwnc.org/volunteer.

For general information regarding internship possibilities at the WNC Nature Center, please see the descriptions below. See our website for current internship openings and applications.

- Ability to work outdoors in all weather conditions
- Ability to follow directions precisely
- Ability to listen and adhere to any and all instructions

If you have questions or require more information about these positions, contact JoAnne Willoughby at jwilloughby@ashevillenc.gov.

Environmental Education Internship

General Internship Timeframe:	Application due by:
Summer: May – August	April 20
Fall: September – November	August 20
Spring: March – May	February 20

Applications are accepted on a rolling basis until all positions are filled.

Time: 9:00-4:30, 20-40 hours per week (flexible hours)

Location: WNC Nature Center, east Asheville

Sponsor: City of Asheville's Parks and Recreation Department

Interested in getting started in environmental education? Love animals and want to share your passion with others? Experience a full sampling of all the different roles educators take on—no two days will be exactly the same. This intern will interact with guests in formal and informal encounters daily, grow their natural history content knowledge, and assist with the husbandry and learn handling of our educational animals with the support of our education staff team. In the summer, the intern will primarily work to assist with the supervision of our Young Naturalist program (a long-running teen volunteer program with approximately 80 students each summer). Help us work towards our mission of connecting our volunteers and visitors to the animals of the Southern Appalachian mountains.

Job Duties:

- Assist with supervision of the Young Naturalist teen volunteer program (Summer only)
 - Prepare supplies before volunteer arrival, assist with volunteer check-in, and follow behind volunteers to ensure all is completed appropriately.
 - Do daily rounds on Young Naturalist volunteers: answering questions, monitoring volunteer performance, assisting with volunteer tasks, and mentoring the teens.
 - Learn to collect and report data for national citizen science monitoring projects.
- Assist with care of education animal collection (birds of prey, reptiles, amphibians)
 - Learn daily clean and full clean procedures.
 - Fill in/assist volunteers with daily and full cleans.
 - Learn to handle educational animals for the public.
- Visitor Engagement & Programming
 - Interact with visitors at docent stations and live meet-an-animal stations.
 - Learn to create and deliver public interpretive programs and environmental education for school groups
- Complete an environmental education special project TBD (based on intern interest and Nature Center needs)

Qualifications:

Required knowledge, skills and experience:

- Be at least 18 years of age and have completed at least one year of college-level education.
- Able to work independently, indoors and outdoors in all kinds of weather and on uneven terrain.
- Have good communication skills. Must enjoy speaking to the public and be willing to engage passing visitors.
- Able to interact tactfully and courteously with the general public.
- Willing to work with groups of children, adults, and teenagers.
- Willing to handle and care for reptiles, amphibians, insects, and barn animals.

Preferred knowledge, skills and experience:

- Knowledge of plants and animals native to the Southern Appalachians.
- Major in wildlife, biology, conservation, natural sciences, environmental education, education or related field.
- Experience in a nature center, natural history museum, school, or related setting.
- Conversational proficiency in Spanish.
- CPR/First Aid Certification.

Unique considerations that this position demands:

- This position will be required to work at least one weekend day per week. Evening hours required on occasion for special events.
- Must be able to walk approximately 3 miles daily on paved paths/trails.

If you have questions or require more information about this position, contact Alayna Schmidt at aschmidt@ashevillenc.gov or 828-259-8085.

The City of Asheville values and respects a diverse community, workforce and ideas, and is committed to promoting an equitable, fair, and just working environment. Our organization seeks to create and provide access and opportunities to volunteers, residents and visitors to fulfill their potential through inclusive engagement practices. All qualified applicants will receive consideration for volunteer positions without regard to race, color, national origin, religion, sex, gender identity, sexual orientation, age, disability, genetic information or veteran status.
